The 10 song album realizes the mindset of "**going rogue**" in 2025 and further pushes resinonmylips evolving sound through barriers previously unbroken.

Keep in mind, resinonmylips only raps the true story of his life, all while improvising his lyrics and flow on the spot. He also records and engineers his songs by himself, with the help of his friend and Germany's next greatest artist, **DJ Snekmanez**.

resinonmylips has gotten over 10,000 subs on YouTube, 250+ videos and more than 100 songs.
